## **1. Introduction**

This compilation of websites was commissioned by the Swiss Agency for Development and Cooperation (SDC). The websites listed cover the five thematic areas that SDC's work focuses on: social development; conflict prevention; governance; work and income; and natural resources and the environment. Included are sites in English, French, Spanish and Russian.

Several gender experts worked on this compilation to ensure a wide breadth of websites in terms of content and language. Rai'da Al-Zubi and Sonja Boezak compiled the English sites, Paola Brambilla and Rai'da Al-Zubi compiled the Spanish sites and Paola the French sites. Elena Krylova compiled the list of Russian websites. Experts in each of the five key fields were also consulted to ensure the thoroughness of the compilation.

Websites that cover a range of issues are categorised under the social development section, so check this section for more websites on conflict prevention, governance, work and income, and natural resources and the environment. The third tier headings indicate the language of the site and not the country of focus.
